MEMORANDUM FOR: Mr. Houston

SUBJECT : International Atomic Energy Statute

Mr. Amory called to say that, on a request from State, his Office has reviewed the International Atomic Energy statute and is meeting a deadline by responding to State today. He has included in his statement a notation that he has not examined the statute from the point of view of associate counsel. He thought we would not want to get into this and he was calling merely to touch base with us. He asked that I relay this to you.

25X1

Assistant General Counsel
